Our five-point plan to make Sandy Park a safe venue

1.

Space & Social Distancing

Our meetings room capacities have been re-designed to accommodate the social distancing guidelines.

Meeting spaces will be allocated in order to keep each event separate and provide a one-way entrance and exit system where possible.

2. Hygiene & Cleanliness

We have introduced new and improved cleaning procedures and are providing a high level of hand sanitiser dispensers throughout the venue.

3. Contact Free Catering

Food and drink will be prepared with increased safety, whilst maintaining Sandy Park's range of fresh produce.

4. Staff Training

All staff will complete Covid-19 training and will be working to new operational procedures and will have PPE tailored to their role.

5. Communication

We will continue to review our procedures and update our clients on further measures that we will be adopting to keep our clients safe.

We look forward to welcoming you back to Sandy Park
