

## Accessibility at Sandy Park

Sandy Park is committed to providing an inclusive and enjoyable experience at Sandy Park, accommodating visitors with any form of disability.

Sandy Park offers wheelchair access to all levels and spaces throughout its conference and banqueting. The smooth-running of events is at the top of our priority list, along with the welfare and satisfaction of our clients and their delegates. Our experienced event specialists will work closely with you to ensure that all requirements are well considered before you arrive at our venue

Inclusion and accessibility for all is hugely important to us, our aim being to expertly manage events from behind the scenes so that our visitors can relax and enjoy their visit to our venues.

All facilities and spaces have been reviewed with regards to accessibility and have been updated to comply with the Disability Discrimination Act. Although rare, there may be instances where full access cannot be offered, due to the nature of some of our historical buildings. Alternative options will be given, and we always recommend a site visit for reassurance with regards to suitability for your event.

We hope all visitors have an enjoyable event at Sandy Park and we welcome all feedback to meet the needs of all visitors.
